Our city - Płock

Płock is a magnificent city in Poland located near the Vistula River. It was founded in the 9th century. It is worth mentioning that in 1079–1138 Płock was the capital of Poland.

Nowadays that city has almost 120 thousand inhabitants. The president of Płock is Andrzej Nowakowski. Talking about administrative area, Płock is located in Mazovian Voivodeship, and it covers almost 90 square kilometers.

Among many interesting monuments it is worth visiting the Cathedral that impresses with romanescque elements. Near the Vistula River there is a long pier with a cafe, amphitheater where visitors can watch performances in the open air.

During the visit it is recommended to go for a walk along Tums-

ka Street. There are a lot of shops, restaurants, and a cinema. After the thrilling walk a good idea is to go to the zoo with over 3700 animals! Even though Płock isn't really big, we have some amazing sports teams.

The most famous is the handball one - SPR Wisła Płock. It was founded in 1964 by 5 young players.

For the last 56 years, the team has won Polish Championship 7 times, Polish Cup 10 times and has participated in Champions League 7 times.

Our football team is also called Wisła Płock. It was founded in 1947. Sadly it isn't as successful as the handball one. They play in Ekstraklasa, which is the Polish top football league.

Beside well-known sports disciplines Płock can boast of having unusual sportsmen representing barely known sports, such as, rowing, wheelchair tennis and paragliding. The rowing team is called Płockie Towarzystwo Wioślarskie .

It takes part in international competitions and 10 members of PTW have

taken part in the Olympic Games. The worldwide known paragliding champion is Wojtek Bógdał and the wheelchair tennis player is Kamil Fabisiak.

Our Passions

Students of our school have many different hobbies. Some of them like doing some sports, for exam-

to introduce to you is Kasia. She's interested in modern dance. She has danced since she was little and now she trains at Dreamlike Dance Studio in Płock and she's really great at it. In the future, she wants to open her own dance school.

We also want to tell you something about Wiktoria and her passion - drawing. Now she doesn't do it regularly because of the lack of time but still she's really good at it and her works are amazing. Her drawings have been awarded at several national competitions. Here you can see a photo of her paintings.

In our school there are many people interested in playing instruments. For example Franek - he plays the piano, cajon (it's a kind of Peruvian

ple dancing and others prefer art, such as drawing or playing instruments. In our school they can develop their interests.

Here you can meet closer some of them and get some information about what they like. The first person we want

wooden drum) and ukulele (a type of small guitar). There is also Wiktor and he plays the guitar and the keyboard.

The next person is Szymon who is keen on ballroom dance. He started dancing when he was 10 years old and now he trains with his dance partner - Amelia - at Falcon Dance School in Płock. They have taken part in many dance tournaments, including Polish Championship and even some international competitions. They have achieved a lot and got many great awards.

A lot of our students enjoy learning Italian, for example Karolina and Ada. They are practising their language skills for four years. They have some certificates of Italian and participated in a student exchange in Naples.

Karolina's another passion is folk dance which she has been training for 6 years.

As you can see, students in our school have many creative hobbies. We are encouraging you to work up your interests.

Pandemic Time

The coronavirus pandemic in Poland began on 4th of March. From 16th of March to 26th of June all of us were locked in our houses and we had to study online.

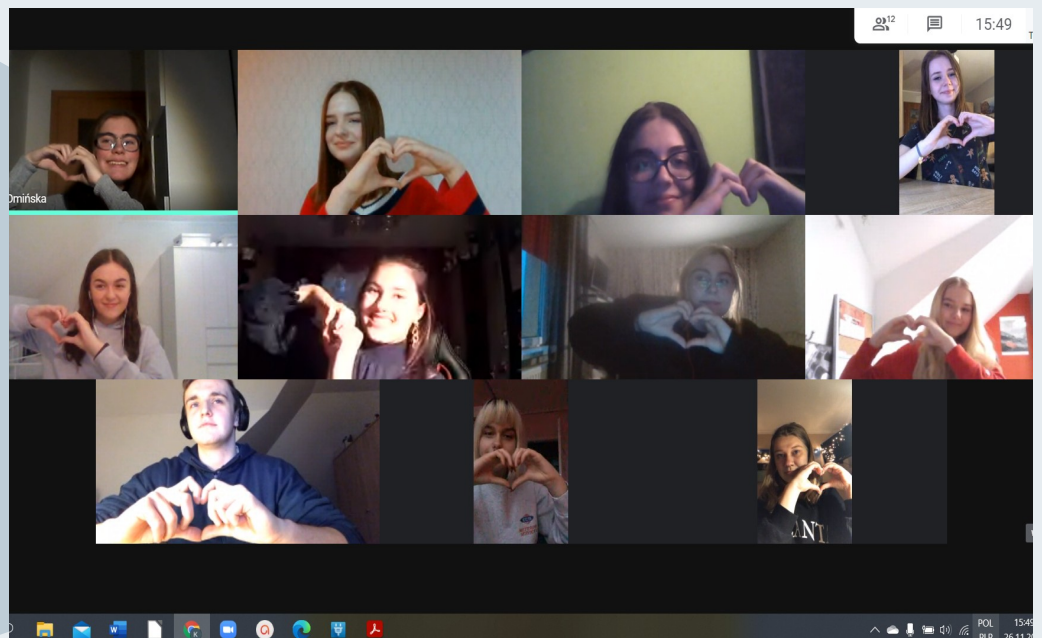

Suddenly we had to change our lifestyle and study ways. Since the start of the pandemic, the total number of

infected people is 666 thousand and died - 9,5 thousand (For day 13th of November). We came back to school in September just for a few weeks, fortunately we could

spend time with our friends. We're happy because we had a wonderful time, but now we have to study online again and once in a blue moon we can spend some time with our friends. The

schools have been closed again! We've made some photos and recorded short videos, where we talk about our feelings about the pande-

mic. It wasn't easy to make the films because since the end of October we have been learning at home and we don't go to school.

geschlossen wurden! Wir haben kurze Videos aufgenommen, in denen wir über unsere Realität in der Pandemie sprechen. Lassen wir uns einen Blick darauf werfen!

Adrian Jarzynka
Vanessa Rochowicz

Die Coronavirus-Pandemie begann in Polen am 4. März. Vom 16. März bis zum 26. Juni waren wir alle in unseren Häusern eingesperrt und mussten online lernen. Plötzlich hat sich unser Lebensstil ganz verändert und wir mussten auf andere Weise lernen.

Seit Beginn der Pandemie ergab die Gesamtzahl der Infizierten 666.000 und 9,5 Tausend Menschen starben in Polen. Kurz danach sind wir im September nur für ein paar Wochen zur Schule zurückgekehrt, zu mindestens konnten wir ein bisschen Zeit mit unseren Freunden verbringen. Leider müssen wir wieder online lernen weil die Schulen nämlich schon wieder

Erasmus Days in Katolickie Liceum Ogólnokształcące

On the 13th October we got mail from our English teacher that the next Thursday we are invited to be participants of some surprises connected with Erasmus Days in our school.

and hopes.

Next step – watching „get to know me” films made by other schools. It was really valuable experience, I hope we will hear from them again soon. We were

At first I was a little bit nervous, but this feeling got replaced with concern and excitement. I knew that it's time of official start of Erasmus+ for me! On the 15th October when I walked into class I saw some things needed to do papercrafts. We were supposed to do our first project challenge – photos with handmade Erasmus+ themed frames!

translating and discussing every film very carefully to extract as much information as possible about our international friends. It was a great way to get closer with Erasmus+ members in our school and get better look at our far-reaching allies. I can't wait for next involvement like this!

Amelia Kwasiborska

It was really amusing, everyone enjoyed manual work with friends. We were talking about our ex-

The Social Dilemma - discussion after the film

Social media became an inseparable part of our lives. The phone is practically a thing we can't live without. Seemingly, social platforms make everything simpler. Finding information, learning, and meeting new friends. It is easier than it has ever been before. Of course, it has got a lot of advantages, but we all know even this can't be perfect.

That social media may be addictive is nothing new to anyone who uses it regularly. In Jeff Orlowski's documentary "The Social Dilemma," former employees from the biggest companies explain that the destructiveness of social networking platforms is a planned procedure, not an accident. The movie exposes how owners of the largest social networking sites manipulate and use us for their benefits. „The Social Dilemma“ makes us aware, that media's influence on our lives becomes bigger and bigger. We should be aware of it before it's too late.

Alicja Ludwicka

Here are some opinions from our school discussion after watching the film:

I know that social media give us a lot of good. We can take part in many wonderful events and help people. But I think we should always be aware who creates such websites and what is their main purpose. The

fact that very often they do it for money. If we are aware of it we are more conscious Internet users.

Katarzyna

I think this movie is a definitely good

warning for young people to show what social media really are. For sure is a place where we can rest and spend our time but also we must use it carefully with consideration.

Martyna

The movie talks about grave matters. It's hard to believe how much we're manipulated. Document is a good warning to our generation. We don't care how much time we lose using a social media.

Adrian

Christmas coming...

Gingerbread cookies

Ingredients:

- *1,5 cup of honey
- *3/4 cube of butter (about 150g)
- *about 500 - 550g of wheat flour
- *1 packet of gingerbread spices
- *1 teaspoon of soda or baking powder
- *1 egg

Preparing:

Step 1. To saucepan add butter, honey and sugar and heat until ingredients connect.

Step 2: To bowl add flour, soda, gingerbread spices, lightly cooled mass from saucepan and egg. Mix, and then work with your hand. Wait about 15-40 minutes before you add a flour. The flour should be added gradually.

Step 3. Roll out the mass and cut patterns.

Step 4. Arrange it on baking plate, put to warmed up to 180 degrees oven and bake 15 minutes.

ENJOY!

Watch Karolina and Łukasz making the cookies.

Christmas wishes

Liebe Erasmus Mitglieder!
zum Weihnachtsfest – dem Fest der
Liebe – schicken wir euch von uns
allen nur das Allerbeste. Wir wün-
schen euch im nächsten Jahr viel
Freude, Wärme, Licht, und auch eine
kleine Portion Ruhe. Frohe Weih-
nachten an unsere deutsche, franzö-
sische, schwedische und spanische
Freunde, hoffentlich werden wir uns
bald sehen!

Mit weihnachtlichen Grüßen,
Schüler aus Polen

Feliz Navidad y prospero Año Nuevo. Ojalá nos encontremos en el próximo año. Ahora todos tenemos muchos problemas, pero creemos que el próximo año va a ser mejor y vamos a viajar y visitar nuestras escuelas. Muchos besos a todos.

Joyeuses Fêtes de Noël! Nous vous souhaitons un agréable et paisible passage de ce temps avec vos proches. Restez en bonne santé. Nous

vous souhaitons également Bonne
Année 2021!

God Jul och gott Nytt År,
varma lyckönskningar

Buon Natale e Felice Anno Nuovo!
Vi auguriamo soprattutto il salute, la
gioia e tutto ciò che sognate. Speria-
mo che quest'anno sarà l'anno mig-
liore delle vostre vite!

Selamat Hari Natal

Vrolijk Kerstfeest

Wesołych Świąt
i szczęśliwego Nowego Roku!
